The theme for this year is New Energy, bringing adventure, contemplation, soul-searching and a quest for higher knowledge and wisdom. A gathering of this energy comes from within, a desire to renew. It is a clearing for insights that may have been missed, doubted or put aside. Allowing New Energy to flow brings hope and excitement to living and this energy projects outwardly into the world for others to see. Some energies that are already known can be brought forward and reaffirmed. There is joy where energy is in harmony ... harmony in heart, spirit, Earth. Finding the center of energy within is joy and fulfillment that enriches our lives. Let us come together in perfect balance to usher in New Energy!
